ALMA MATER

Alma Mater, Alma Mater, Voices sing of Thee
Sing of Victories in the past,
Sing of Memories that last;
Nestled in the Alleghenies
Guarded by God's own hand,
Alma Mater, Alma Mater, Greatest in the Land;
The Green and White, our colors true ...
HAIL, ALL HAIL TO YOU.

FOREWORD

Every phase of our school lives has been readying us for our roles as full-fledged citizens of this nation. The studies we have pursued have broadened our minds. Sports have taught us fair play and the value of being able to work together as a team. Our various club and organization activities have made us aware of the need for cooperation and organization in getting a job done. Most important of all is the invaluable experience of having established healthy relationships with teachers and fellow students. All have helped in some way to shape our attitudes as we move into the future with fervent intentions, steadfast courage, and faith in God.

Administration and Faculty

By the nature of the American system, there is an immediate linkage among the different levels of authority in directing the affairs of established institutions. Responsible personnel work under responsible leaders to get jobs done. As Lyndon B. Johnson leaves his office as President of the United States on the national scene, Robert W. Plummer relents his position as Chief School Administrator locally.

SPECIAL BOARD OF CONTROL: Mr. John Urban, Mr. Kenneth Reinhart, Mr. Edward Solomon, Jr.

During the past several years, the Portage Area School Board has been working in conjunction with the Department of Public Instruction in Harrisburg to reduce the debt incurred by rising school costs, the freezing of state subsidies, and the reluctance of the School Board to raise local school taxes. Financial benefits have come in the way of special state subsidies and the professional advice of a Special Board of Control, headed by Mr. Kenneth Reinhart, School Business Management Advisor, D.P.I. Coupled with an intense effort on the part of local educational authorities, the Portage Area Schools will hopefully reach financial stability without special state aid by 1970.

Dedication—Supervising Principal Retires After Thirty-Five Years in Education

At the end of this school year, the Portage Area Schools will see the retirement of Mr. Robert W. Plummer, a devoted educator and administrator. In his educational career Mr. Plummer has accumulated vast experiences as a teacher of mathematics and history, Junior-Senior High School Principal from 1948 to 1957, basketball coach, Faculty Athletic Manager, President of the Supervising Principals Association in Cambria County, member of several State Educational Committees, and Supervising Principal of the Portage Area Schools from 1957 to the present.

Mr. Plummer has been married for thirty six years. His wife, Margaret, will retire with him after her twenty five years of service in education. They are the parents of two children, Dr. Robert A. Plummer, M.D., and Jean, a junior at Temple University, and the grandparents of one, Laurie Anne.

It is with great admiration that we, the Senior Class of 1969, dedicate this volume of the EXCELSIOR to Mr. Robert W. Plummer.

Lunch with the students.

A word with Mrs. Plummer.

Right: An official visit.

Administrators

Dear Seniors:

Very soon now, May 27, to be exact, you will take off from this launch pad and rocket into orbit . . . not a lunar orbit, of course, . . . but one which can be as exciting and daring and triumphant as the Borman-Anders-Lovell odyssey.

Destination? Miles? Speed? Project? These are not space questions for astronauts; they are decisions for "earthlings"—for you, graduates for 1969.

I hope you will love this earth all the days you are on it; I hope you will receive much from it; I hope you will give much to it.

Sincerely,

Marcellus C. Lynch

Spanish III Elective Initiated to Enlarge Foreign Language Programs

Students are afforded the opportunity of electing any one, or two, of the three foreign languages offered as electives during their high school careers. Next year Spanish IV will be added to the curriculum, giving students a four-year background in that particular language. Available at the school for group or individual instruction are four eight-station mobile listening centers. An audio-visual library, consisting of tapes, records, slides, filmstrips, and magazines is being built.

English Department Structures Course Content to Encourage Critical and Constructive Thinking

Crime and Punishment, The Sound and the Fury, Murder in the Cathedral, Hamlet, Julius Caesar, The Tale of Two Cities, Macbeth—sometimes nightmares to Senior High students, and always a challenge to creative instructors. Much used teaching aids help to stimulate imagination in the classroom. Student composition work is done in conjunction with specific literary selections, but the SRA Contemporary Composition serves as the basis for composition courses. The theme always—"critical and constructive thinking."

Social Studies Curriculum Gives Recognition to School Administrators' *Memorandum # 93*

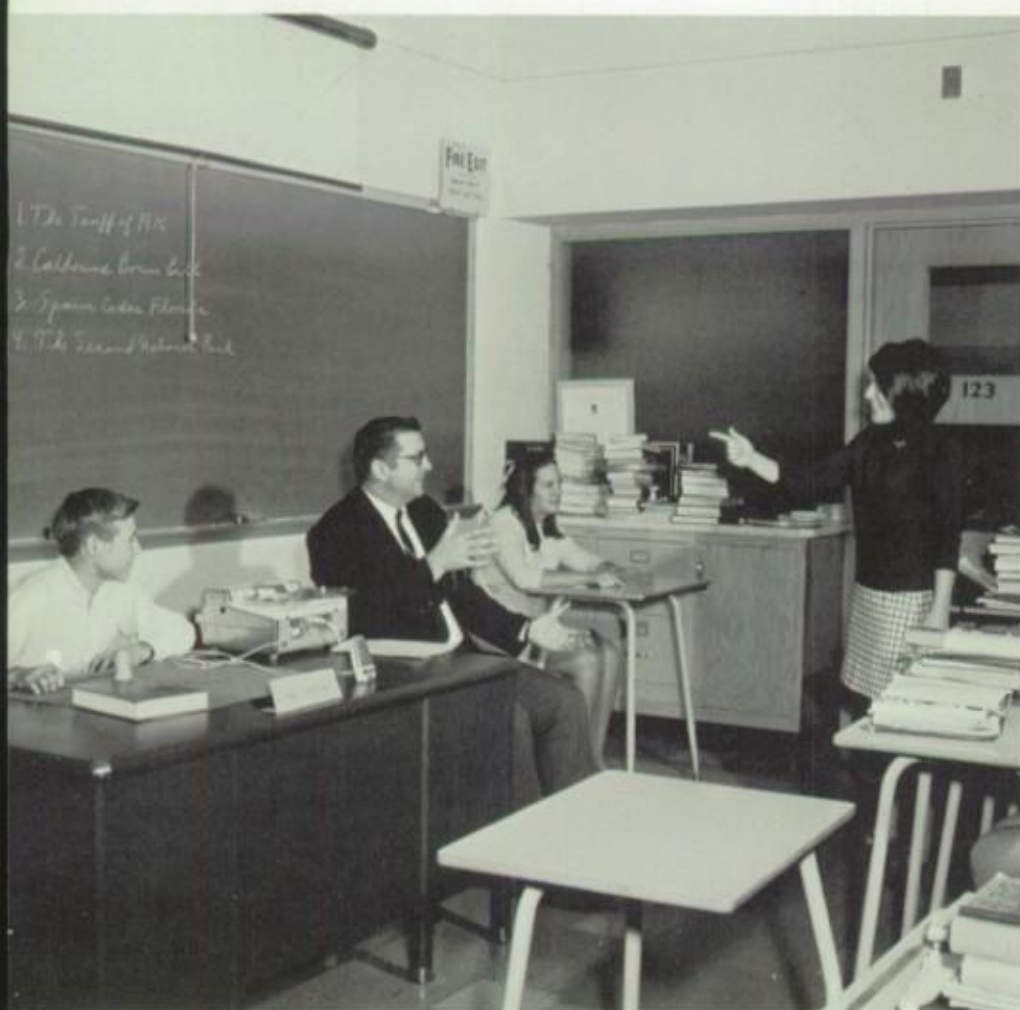

"... in each course of the History of the United States and of Pennsylvania taught in the elementary and secondary schools of the Commonwealth, there shall be included the major contributions made by the Negroes and other ethnic groups..." Teachers and administrators are using *Guidelines for Textbook Selection: The Treatment of Minorities* in complying with the Memorandum. In recognizing the serious responsibility that the youth of today will have in coping with the economic strategy of this country tomorrow, the Department has also recently incorporated a formal Economics Course into the twelfth grade year. Long-Range Developmental Program projections include the addition of sociology, political science, and philosophy to the social studies curriculum. The High School Geography Project will be utilized, and more earth science will be included.

*Planned Vocational-Technical School
for Northern Cambria County May
Allow Greater Specialization
for PAHS Business Education
Students*

If the planned Vo-Tech School provides facilities for training some portion of the students choosing a business course, PAHS's Business Education Department will have the opportunity to prepare students for greater specialization within a particular program. Projected in the Long-Range Developmental Program is the expansion of the data processing unit from a six week course to a semester course, the addition of a work-study program upon graduation, and the addition of Bookkeeping II. Implementation of these projections will require keypunch equipment, expanded shorthand laboratory facilities, and automated bookkeeping equipment.

Pre-Calculus Course Added to Curriculum. Doctoral Candidate Joins Mathematics Department

Senior Academics, 1968-69, are being offered the first formal Pre-Calculus course at PAHS. The change has come about as a result of increasing demands on freshman mathematics majors in the colleges, and an attempt to improve the Mathematics curriculum at PAHS to meet these demands. Course instructor and Doctoral Candidate at Southern Illinois University is Mr. Larry Giovacchini. In a continued effort to modernize the Mathematics program, staff members are supplementing textbook coverage with units on set theory, numeration systems, and basic computer ideas and language.

*Physical Education, Health, and Adapted
Physical Education Programs Promote
Health and General Welfare
of All PAHS Students*

The Health and Physical Education Department strives to guide students to become more effective individuals, physically, mentally, and socially. Health, required of Freshmen and Sophomores, instills in the students a desire to achieve the highest degree of physical fitness. Comparatively new activities in the gym are field hockey, gym soccer, and crab soccer. The Adapted Physical Education program is designed to correct postural deviation found in a check by the adapted teacher, school nurse, and school physician at the start of each school year. With parental permission, the child is scheduled for special classes each week and follows a program issued by the Department of Public Instruction. The Physical Education Program is evaluated via the test recommended by the President's Council on Physical Fitness and other skill tests.

Science Department Projects Institution of More Advanced Courses

Within the Long-Range Developmental Program, the Science Department has projected the possibility of moving Biology to the ninth grade level in order to allow Seniors a selection of more advanced courses such as physiology. At present, all Junior High students take General Science, all Sophomores take Biology, and all Academics take Chemistry. College preparatory Physics, General Chemistry, and General Physics remain electives. The courses are designed to reach all levels of ability and interest through lecture, demonstration, and laboratory experiments.

Newcomer to Portage Area's Faculty and Art Department

Miss June Kreutzberger, although a newcomer to the faculty, has several years of teaching experience behind her. Here at Portage, all art instruction falls to one person—Junior High enmasse and Senior High elective art. Junior High pupils become acquainted with the field generally, while the Senior High students become more specialized in working with the pottery wheel, oil painting, and mosaics, to name a few. In addition to individual work, the Senior High students contribute in making posters, backdrops, and scenery settings for major school productions and activities.

In Portage Area's Long-Range Developmental Program, the Industrial Arts department is projecting an expanded program in drafting and welding, with the aid of, and in hopes of an added instructor. The existing program has been carefully designed around plastics, woodworking, and metal working. All Junior High and General Course boys have scheduled shop work, but any Senior High student has the opportunity of electing the courses offered.

Vocational Home Economics Becoming of Great Interest to Portage Male Students

Increasing numbers of Senior boys have been electing a course in Vocational Home Economics, and finding a course both useful and intriguing. Receiving instruction built around the same course content as the females, only adapted to fit their special needs, the males study human development and the family, home management and family economics, foods and nutrition, housing, and textiles and clothing. All Junior High girls are required to take general home economics.

Librarian, Guidance Counselors, and County Special Education Instructor Concentrate on Individuals' Special Needs

In a student body numbering approximately 860, there are 860 individuals with special interests, needs, and problems. The classroom teachers and administrators rely heavily upon the talents of those professionals whose job it is to direct and explore special interests of students, cater to needs, and counsel those seeking advice or solutions to problems.

Music Department's Program Makes Experience Available to All Students at Three Levels

General Music courses, instrumental music, and chorus continue to make available general music opportunities for everyone and, at the same time, give careful consideration to the more specialized musical interests of pupils. General music, required in the Junior High and elective in the Senior High helps pupils become more interested and intelligent consumers of music. Instrumental music is developed through three phases beginning with fundamental lessons, converting to rehearsal technique in the Junior High, and advancing to full rehearsal situation in the Senior High. Junior and Senior High Choruses make a similar transition from beginning to more advanced stages of musical development.

School District Provides for Pupil Personnel and School Health Services

In addition to interpreting and enforcing school attendance laws, Miss Franey does all preliminary work in setting up home instruction programs and makes all contacts with community, county, juvenile, and welfare agencies. The School Health program provides students in selected grade levels with physical exams; dental exams; height, weight, vision, and hearing screening; tuberculin skin tests, with all positive reactions receiving yearly chest X-rays. The district extends these services to all Special Classes and non-public schools.

"Men in Bronze" Bring Historical Greek Tradition to PAHS Gym Exhibition

Every two years the Physical Education Department involves a strong representation of the student body in an exhibition of physical ability and coordination. The 1968 exhibition was viewed by the entire student body in a matinee performance. The evening performance was highlighted by "Men in Bronze" posing as representatives of various athletic events.

"Love

Blue"

After weeks of working, planning, and decorating, the 1967-68 Junior-Senior Prom became a reality. The warm spring weather created the perfect atmosphere for this very special night. Seniors selected James Smetana and Wanda Sendzik as King and Queen. Although the evening seemed to come to an end much too quickly, the memories created there will long remain.

James Smetana and Wanda Sendzik are crowned King and Queen by last year's royalty, Denny Costello and Ruthann Randall. The Junior attendants are Bill Layo and Ruby Chelednik, Tom Dobrowolsky and Connie Mayers.

Teachers and students enjoy the evening.

Jim and Wanda are extended the honor of the first dance.

Clubs and Organizations

The Portage Area students find in the variety of experiences they are exposed to that a concert by a philharmonic orchestra is as enjoyable as a half-time band show.

Those extra little talents people all have but seldom have a chance to develop are expanded in club activities. Here they can all "do their own thing" and grow into adults with a better understanding of people in other professions. Perhaps they will never be newspapermen, farmers, or librarians but there will be a better understanding in each of them.

A forty-member staff assists Mrs. Jean Palmer, advisor, in publishing five issues of the school newspaper. Since there is no journalism class taught at PAHS, students work during activity periods, free periods, after school, and at home.

The paper is produced entirely within the school and sold to the student body at five cents per copy. Some staff members were selected to attend The Annual Tribune-Democrat Press Conference in nearby Johnstown, Pennsylvania.

Sports

A sportsmanlike attitude is necessary whether the sport is on the professional level or interscholastic. Portage Area knows how important good sportsmanship is and takes efforts to instill it in the students.

Mustangs Gain Reputation

Although this was a rough season for the Mustangs (2-7), there was an introduction of a new coach, system, and outlook. In the first game the Mustangs showed good promise as they lost a hard fought game to Forest Hills, a school twice their size. They proved their desire in the next game by beating Laurel Valley in the final seconds. The Mustangs recorded an over-all losing season, but gained a name for being the hardest hitting team in the district. This hard hitting showed up in games against Bedford and Central Cambria, two of the better teams in the area. With a new attitude, increased desire, and hard work, the sophomores and juniors show promise of a brighter future for the "hard hitting Mustangs."

Wozniak prevents long gain.

Miller (31) scrambles for yardage.

Yetsko moves from tackler on end run.

Kittell (41) runs into heavy traffic.

"... now Portage leads 7-0."

Kittell's off again!

Orders from Headquarters.

Chobany uncorks one for long yardage.

Coach makes half-time corrections.

No hole for Kittell (41).

Wozniak splits the uprights.

Here Sportsmanship Counts

The Mustangs recorded an overall losing season, 6-14. Five of those lost games were final second heartbreakers for Portage fans. Highlighting the season was the Mustangs' spirit of good sportsmanship which brought them a special trophy in the Bishop McCort Tournament. In that tournament the Mustangs also secured the Second Place trophy.

Large Turnout Expected

First row, left to right: Mr. Koza, Coach, R. Pinos, T. Steward, R. Kiel, D. Smith, M. Scarton, P. Pfeilstucker, B. Ritchey. Second row: J. Owen, M. Kittell, T. Dobrowolsky, B. Layo, F. Mutch, R. Jones, D. Oravec. Third row: L. Trusch, T. Giles, J. Castel, J. Stancovich, T. Wilson, D. Stewart, B. McCabe, C. Robine. Fourth row: R. Spaid, J. Koza, D. McCabe, J. Geriak, G. Chobany, J. Wozniak, K. Michrina.

The loss of six starters plus several reserves from last year presents a dismal baseball picture for the 1969 season. All positions are up for grabs. Indications are that competition for the positions will be keen since a large turnout is expected. A successful season will hinge on the ability of the returnees, George Chobany, John Geriak, Rick Kiel, Robert Spaid, and Mike Ocilka, to carry the brunt of the attack and to solidify the team.

Left to right: Mr. Koza, Coach, R. Spaid, T. Dobrowolsky, B. Layo, B. McCabe, G. Chobany, K. Michrina, J. Geriak.

Seniors

Richard Nixon, in his "new" role as President, must make decisions that will affect the entire nation. As a senior walks away from high school days and the security of his home life into his "new" life, he too faces a world of decisions.

This land is mine, God gave this land to me,
 this brave and ancient land to me.
 And when the morning sun reveals her hills and plains,
 then I see a land where children can run free;
 So take my hand and walk this land with me,
 and walk this lovely land with me.
 Tho' I am just a man, when you are by my side,
 With the help of God I know I can be strong.
 So take my hand and walk with me,
 and walk this lovely land with me.
 To make this land our home.
 If I must fight, I'll fight to make this land our own—
 Until I die—this land is mine!
